

Editorial: Liquidation Auction of Heavy Duty Machinery

Massive Auction Of Vehicle Manufacturing Plant And Precision Engineering Equipment

Van's Auctioneers are very proud to have been instructed to attend to this huge two day Liquidation Auction on 20 and 21 June 2018.

Day 1, which will be held on Wednesday 20 June, will feature a very large quantity of heavy duty machinery that are used in the manufacturing of large vehicles. This includes heavy duty industrial benders, plasma cutters, industrial drill presses, computerised spot welders and many more machinery and very specialised engineering equipment.

A powder coating plant, spray booth, sandblasting plant as well as many overhead cranes of different sizes will also be offered on the first day of this auction. In addition to the above a lot of tools, containers, welding machines, tool cabinets and many more items will be available.

There will also be an opportunity to acquire vehicles which includes bakkies, forklifts, tractors and other vehicles.

On Day 2 of this auction, to be held on Thursday 21 June, a large variety of office furniture will be available. This will include bulk filing cabinets, conference tables and chairs, various shapes and sizes of office desks and drawers, as well as office chairs and tables. Many fridges, bar fridges and other kitchen appliances will also be available.

Viewing of these high quality machinery and items will be done on Monday, 18 June 2018 and Tuesday, 19 June 2018 from 9h00 to 16h00.

The auction and viewing will be at the premises at 22 Monteer Street, Isando in Johannesburg.

Opportunities will be arranged to view the items that will be offered on this auction. Van's Auctioneers can be contacted on 086 111 8267, or their website can be viewed at www.vansauctions.co.za or their Facebook page for more information.
