## OUTSIDE EXHIBITS & PROMENADES

# Shrink mine water problems...

into a smaller footprint.

**Nalco Africa helps you reuse, recycle, and conserve water... while reducing your environmental impact.**

Nalco Technologies empower vigorous and effective mine water management. Throughout Africa, we are showing mine operators how to use less water, recycle more and return clean water to the environment. So you can run a more productive, more profitable and more sustainable mine.

Our on-site experts are ready to show you how Nalco innovations can deliver effective, affordable mine water management.

Contact Nalco Africa today. And let us start shrinking your mine water problems.

# Extract more profit...

Sustainably.

**Achieve lower costs and higher yields with a smaller environmental footprint**

Maximizing yield and profits while minimizing environmental impact is an enormous challenge. But it can be met through the robust capabilities and advanced technologies of Nalco Africa. We know African mining, and offer customized solutions for:

- ▲ Dust control
- ▲ Flotation
- ▲ Agglomeration
- ▲ Scale inhibition
- ▲ Flocculation
- ▲ Coagulation
- ▲ Filtration
- ▲ Integrated water management

Our on-site experts have powerful tools that can lead you to a more sustainable and more profitable mining operation.

Let us dig in and help you. Contact Nalco Africa today.

# Making coal mining greener, cleaner...

and more profitable.

**It all comes together with Nalco Africa.**

Nalco Africa makes it possible to have a cleaner, more environmentally sustainable coal operation that is actually more profitable. It just takes some very innovative technologies, and the expertise to help you apply them.

For example, we offer advanced dust control programs that not only keep your mine cleaner and safer, but help you recover more coal and pocket more profit. These join a larger group of innovations that help you manage water more efficiently, and recover more useable coal from fine coal circuits without the hazard and environmental implications of diesel fuel.

Trust us to help you achieve a cleaner, greener, more profitable operation. You will be in good hands. Contact Nalco Africa today.
