Global Crane Sales and Zoomlion Sell 20 Rough Terrain Cranes to Sarens Group

HOUSTON (Sept 13, 2012) — **Global Cranes Sales**, in partnership with leading crane manufacturer **Zoomlion**, has sold 20 **rough terrain** cranes to **Sarens**—one of the largest crane rental companies with 101 entities in 51 countries around the world. Sarens purchased the cranes in April 2012 at the Intermat show in Paris, France where Global was an exhibitor. The company purchased 20 RT cranes at that time (10 **RT35** cranes, and 10 **RT55** cranes).

Sarens already owned 10 RT55 cranes from a previous purchase from Zoomlion, and used them in its operation for more than 12 months. Satisfied with the results of the first 10 machines, Sarens decided to add an additional 20 cranes to its fleet in Northern Africa, and will possibly expand the use of the Global/Zoomlion rough terrain cranes in the rest of its fleet worldwide.

Since the purchase of the 20 rough terrain cranes last April, Global and Zoomlion have delivered the first 15 machines, and the last five RT35s are scheduled to be delivered in September 2012, all being used in Sarens' North African operations. After the final delivery, Sarens will own 30 rough terrain cranes built and sold by the Global/Zoomlion partnership.

-more-

Global is the exclusive international distributor of Zoomlion Rough Terrain cranes—a complete line of RT cranes loaded with all the features and meeting the tallest expectations in engineering and design. Four models are available, with lifting capacities ranging from 35 to 100 tons. The two models purchased by Sarens include the RT35, which has a 35-metric ton (40-U.S. ton) capacity and a 31 m (102 feet) boom. The second is the RT55, a rough terrain crane with a maximum lift capacity of 55-metric tons (60-U.S. tons), and is engineered to have the maximum capacity at radius for its weight. It is also specially built by Zoomlion to have equal or superior construction, features, and equipment compared to competing cranes. Additionally, each crane includes superior service and support from our established U.S. team.

Global Crane Sales, in partnership with Zoomlion, offers full lines of CE-standard cranes meeting ANSI standards, including Crawler and Rough Terrain Cranes. The Global team has more than 100 years combined experience in the crane industry and is poised to meet the needs of customers both domestically and internationally. Additionally, the company offers a variety of financing plans to aid in the procurement of its cranes. For more information, contact Global Crane Sales, 13201 Northwest Freeway, Suite 800, Houston, TX 77040, call 832-460-3939, email info@globalcranesales.com, or visit the website at www.globalcranesales.com.
