

TRU-TRAC ROLLERS

Conveyor Specialists

COMPANY PROFILE

Tru-Trac Rollers (Pty) Ltd. is the leader in providing solutions to problems experienced with the tracking and aligning of conveyor belts. We supply a full range of self-aligning idlers for tracking both the return and load-carrying side, from slow moving belts, reversible belts all the way through to high-speed, high-load belts for both the food, packaging & mining industries. We have also sell a full range of Scrapers, Impact Beds and Skirting Rubber and Idler Safe Guards.

Tru-Trac® trackers and scrapers are designed around our Patented and Proven Technology which really does work. This is backed-up by our local and international distribution & support network. **Tru-Trac®** are sold in the over 50 countries worldwide. [Tru-Trac® is reliable, low maintenance, operates in all conditions and is simple to install.](#)

Tru-Trac® has won awards

1. 1997 South African Bureau of Standards Design Institute Awards for Engineering Design
2. 2002 German Health & Safety Bureau Award for innovation
3. 2006 Johannesburg Chamber of Commerce & Industry - Gauteng Exporter of the Year

Some of the Savings you will achieve by using the **Tru-Trac®**

- Increased production and reduced downtime
- Reduced damage to conveyor belt & structure
- Increased conveyor life
- Reduced labour involved in clearing spillage
- Reduced spillage and wastage
- Quick and Easy Maintenance
- Reduced power consumption
- Improved safety

Tru-Trac Rollers or their accredited agents offer to survey your conveyor belts and then recommend solutions that work. Once our systems are installed you are ensured that your conveyors remain aligned and clean, free of carryback.

The bottom line is that **Tru-Trac®** will save you money by protecting your belt, improving safety and enhancing productivity. Contact us to utilise our unique knowledge and expertise to solve your misalignment problems.

SIMPLICITY IS A SIGN OF QUALITY
