

Dear Editor

Please find below a Press Release from LEESA on their upcoming "Lifting Equipment Conference" on the 14th and 15th of September 2016 at Electra Mining Nasrec.

Press Release – 13th of June 2016

Lifting Africa and LEEASA (Lifting Equipment Engineering Association of South Africa) on the Lifting Equipment Conference that will be hosted at Electra mining

On the 14th and 15th of September 2016 LEEASA and Lifting Africa will host a 'LIFTING EQUIPMENT CONFERENCE'. The conference will be held at Electra Mining Nasrec in Johannesburg.

All players in the Lifting Industry will find this 2 (two) day conference most educational and highly interactive. It will offer the industry players the opportunity to meet other players in the Lifting and related Industries.

This is also an ideal opportunity to get to know the Lifting Equipment Engineering Association of South Africa – LEEASA, and its members.

The topics that will be covered on the 14th of September are: DMR 18, Mobile Cranes, MEWPS, Overhead Cranes, NCOP, and Tower Cranes.

The topics that will be covered on the 15th of September are: How CPD works, Lifting Tackle - legal and inspection, Mine Health and Safety, SANS Standards, Crane Accidents, Training to skill level, Heavy Lift projects, and Forklifts.

Experts in the various fields will present the papers, discussion points and answering of questions during the Q & A sessions. The speakers include: Ken Greenwood, Piet Otto, Arni Summers, Quentin van Breda, Steve Harper, DoL, Martin Pieterse, Jean du Randt

What makes this especially exciting is that all ECSA registered members will earn 2 CPD points if they attend both days of the conference or alternatively one CPD point per day attended.

For more information and registration forms contact Surita Marx from Lifting Africa on 083 281 5761 or email her on info@liftingafrica.co.za. or visit www.liftingafrica.co.za
