

Xylem Water Solutions South Africa Set to Roll Out Exciting New Products at Electra Mining Africa

[Xylem Water Solutions South Africa](#), the South African arm of the global water solutions company, Xylem Inc. is set to roll out several new products at [the Electra Mining Africa Expo](#) this year. The team at Xylem have assembled a collection of top-tier products from the globally renowned brands from within its stable for the biennial conference, that will be held from 12 – 16 September at the Nasrec grounds in Johannesburg.

Xylem Water Solutions is set to solidify its reputation as a global thought-leader and unparalleled service provider at this year's Electra Mining conference. The company will again be exhibiting a range of renowned products at their state-of-the-art display area while demonstrating product capabilities and the best solutions for the African region.

A team of experts will also be on hand throughout the conference to discuss product-specifics and to guide visitors towards the best possible solutions that suit individual requirements.

Top of the line new products and services are set to debut at the conference. These products and services span global pump brands from within the company's stable that will be highlighted during the conference, including Godwin; Flygt; Sanitaire; Leopold; Wedeco and Lowara.

"We are looking forward to this year's show," says Lorraine Smart, marketing manager for Xylem Water Solutions South Africa. "The team has been hard at work putting together the best product and service selection for Electra Mining and we look forward to interacting with visitors in this vibrant setting."

With cutting-edge displays and most importantly an extensive portfolio of world-class products and experts – Xylem Water Solutions South Africa is ready to bring an experience of its brand-excellence to visitors at Electra Mining this year.

Visitors to Electra Mining Africa are invited to join the Xylem-team at their stand – number G10 in Hall 6 everyday from 12 – 16 September.

About Xylem:

Xylem (XYL) is a leading global water technology provider, enabling customers to transport, treat, test and efficiently use water in public utility, residential and commercial building services, industrial and agricultural settings. The company does business in more than 150 countries through a number of market-leading product brands, and its people bring broad applications expertise with a strong focus on finding local solutions to the world's most challenging water and wastewater problems. Xylem is headquartered in Rye Brook, N.Y., with 2013 revenues of \$3.8 billion and more than 12,500 employees worldwide. Xylem was

named to the Dow Jones Sustainability World Index for the last two years for advancing sustainable business practices and solutions worldwide.

The name Xylem is derived from classical Greek and is the tissue that transports water in plants, highlighting the engineering efficiency of our water-centric business by linking it with the best water transportation of all -- that which occurs in nature.
