

SIEMENS

Ingenuity for life

Siemens at Electra Mining

12 to 16 September, Expo Centre, Nasrec.
Siemens stand: Hall 7, Stand D08

For more than 150 years, Siemens has been committed to supporting new, innovative industries in South Africa. Siemens offers products, systems, solutions and services across the entire life cycles for key industry sectors such as mining, oil and gas, petrochemicals, food and beverage, and water.

As a leading provider of efficient equipment to mining companies in Africa, Siemens South Africa offers a solution portfolio tailored to the region's needs. Whether for energy infrastructure or automation, Siemens engineers view the product development and production chain as a whole.

This year at Electra Mining 2016, Siemens Digital Factory and Process Industries and Drives aim to show its Integrated Drive systems (IDS) expertise along with its seamless integration into automation expertise. Siemens Integrated Drive Systems (IDS) is the right solution for every requirement. Our stand will be also showcasing gear units and couplings, motors, drives and condition monitoring services.

Join us for some fantastic prizes and refreshments whilst viewing our latest innovative technologies to help support your mining business with a Digitalization experience.

Check into Siemens stand on our FB:

 **SiemensinAfrica**

interact with the page and receive a free gift at the booth.

Join our stand daily from 12 to 15 September before 14:00 to enter into the lucky draw and stand a chance to win a prize. The draw will take place at 14:00 daily.
