Media Release

Title:

Jakarta bound for Mining 2017 Indonesia

Body:

RCT is joining channel partner Linindo Pacific International (LPI) in Jakarta for Mining Indonesia, from September 13 – 16.

The 18th International Mining and Minerals Recovery Exhibition is Asia's largest mining equipment exhibition; providing a professional platform for the industry to do business. The well-known and respected show attracts key players in the mining industry.

LPI is South East Asia's largest integrated after-market solutions provider for the heavy mobile equipment industry and is RCT's authorised Indonesian distributor of Muirhead®, AusProTec™, EarthTrack® and some of the ControlMaster® range.

"RCT has been providing the Indonesian Mining sector with automation, safety and protection solutions for more than 30 years and during this time we have worked with LPI to establish strong working relationships with both local and foreign mining companies," said RCT's Account Manager for the region, Shane Smith.

"We are excited to take part at this year's event with LPI, it's a great chance to engage with our Indonesian customers and help convey the value of our profit-boosting solutions," he said.

"We look forward to continuing these relationships and establishing new ones at this well-regarded event."

###

ABOUT RCT

RCT is an innovative smart technology company with the expertise to evolve entire industries. We design, manufacture and deliver technology and service solutions to support clients around the world in multiple sectors including mining, industrial, agricultural and civil. With 45 years of success, RCT leverages knowledge and insight to provide clients the advantage of measurable value – increased profitability, productivity, efficiency and safety.

Since the 1970s, RCT has traversed all corners of the globe. Our team has grown to 150+ committed people working with clients in over 64 countries worldwide, from Australia to Africa, Asia, Russia, North America and Latin America.

With our unique way of viewing the world, intelligent solutions and backed by exceptional support, service and training, RCT is a global leader in smart Guidance, Teleremote and Remote Control automation solutions for the mining industry.

We continue to listen, see, think, create and evolve solutions that lead to better profitability, productivity and safety for our clients.
